

Shopping for a hands-free cellular driving kit?

There are just 2 ways to go: Easy and Hard

Easy is SafeWireless. Why?

- SafeWireless gives you great prices on special packages—both car kit and harness, in a single convenient bundle. No shopping around!
- Competitive prices and a full two-year extended warranty; (at no extra cost!).
- Easy is SafeWireless’ outstanding, over-the-top service.

As an authorized Parrot Premier Dealer, SafeWireless carries only the latest fresh inventory direct from the factory.

What’s hard?

Hard is buying your car kit at one store and your harness at another. Hard is lowball pricing, second-tier products, no extended warranty, and lousy service--“all sales final, no returns.”)

At Safewireless, we offer the world’s best deals on the world’s best Bluetooth hands-free products. What's an extended warranty worth? What’s it worth to buy from an authorized dealer, knowing that if you have a problem, we’ll take care of it right away? When you come right down to it, there’s really only one way to go: SafeWireless!

Here are the world-class Parrot Bluetooth Car Kit products we carry:

- Parrot CK3000
- Parrot CK3100
